**Here's how you can support your children during exams:**

1. Be familiar with your child's exam schedule. This will help you with planning their routine during exam and revision days.
2. Keep away from digital distractions. Install parental controls on your child's devices so that you can ensure they keep away from distractions and focus on doing their best during exams.
3. Make time for your child, particularly during the important papers. Stay aware of their needs, whether it's a spot of revision, a cup of coffee to perk them up or just being available to address any concerns.

**Here's how you can support your children during exams:**

1. Be familiar with your child's exam schedule. This will help you with planning their routine during exam and revision days.
2. Keep away from digital distractions. Install parental controls on your child's devices so that you can ensure they keep away from distractions and focus on doing their best during exams.
3. Make time for your child, particularly during the important papers. Stay aware of their needs, whether it's a spot of revision, a cup of coffee to perk them up or just being available to address any concerns.
